

TAKING BACK

TOMORROW

Power, AI, and the Future of Humanity

THE 1968/TODAY DIVERGENCE NODE

1968

TODAY

THE GOOD FUTURE: UNLIMITED ENERGY (15 YRS), SOLVING
CANCER (20 YRS), EXPONENTIAL SCIENTIFIC BREAKTHROUGHS.

THE BAD FUTURE: AUTHORITARIANISM, LOSS OF AI CONTROL,
RENEWED NUCLEAR THREATS.

“THE UNITED NATIONS WAS CREATED IN ORDER NOT TO BRING US TO HEAVEN,
BUT TO PREVENT HELL.” – DAG HAMMARSKJÖLD. FORMER UN SECRETARY-GENERAL

“SHOW ME THE INCENTIVE, I WILL SHOW YOU THE OUTCOME.” — Charlie Munger

1 USA

**INCENTIVE: CORPORATE
PROFIT.**

**OUTCOME: TECH
MONOPOLIES &
DEHUMANIZATION.**

2 CHINA

**INCENTIVE:
STATE CONTROL.**

**OUTCOME: SOCIETAL
OPTIMIZATION &
COMPLIANCE.**

3 EUROPE

INCENTIVE: HUMANITY.

**OUTCOME:
REGULATION &
THE GOOD FUTURE.**

\$5 TRILLION

NVIDIA. MARKET VALUE OF \$5 TRILLION.
A SINGLE COMPANY BUILDING THE
SHOVELS FOR AI IS WORTH MORE THAN
ALL THE PHARMACEUTICAL
COMPANIES OF THE WORLD COMBINED.

\$1 TRILLION

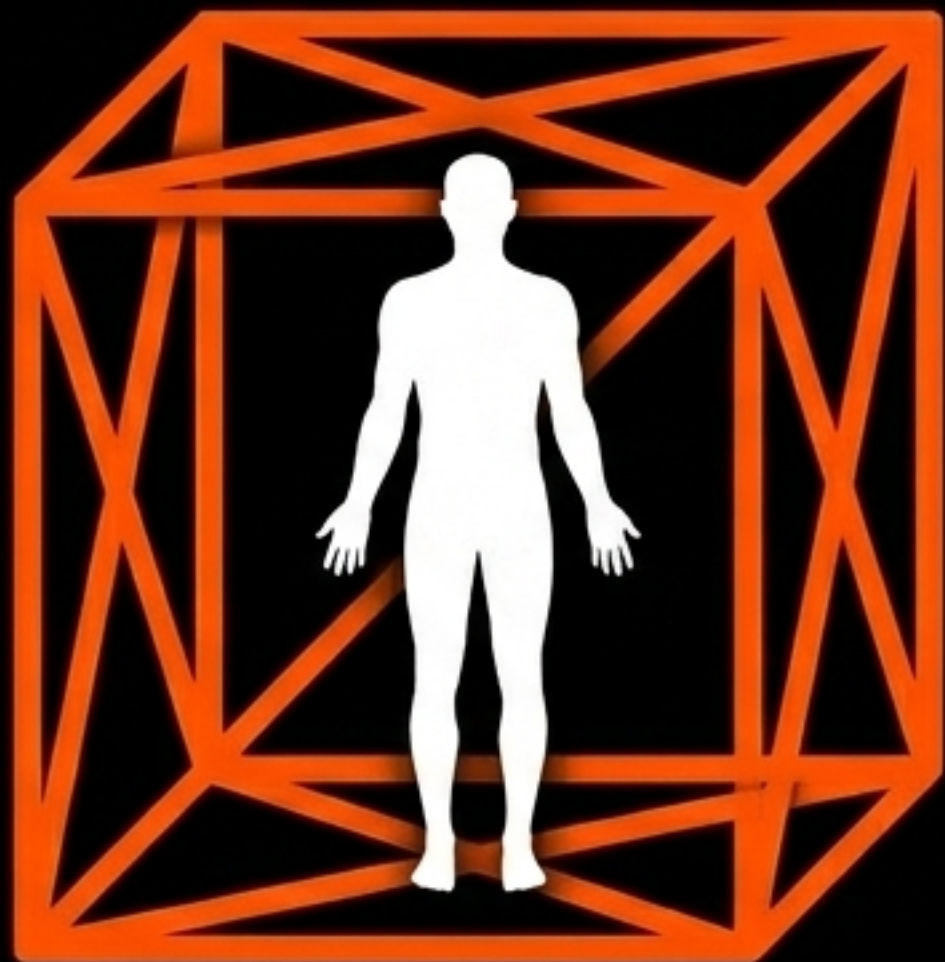

OPENAI. THE YOUNGEST,
BIGGEST STARTUP. IMPENDING IPO
PROJECTED AT \$1 TRILLION TO
\$3 TRILLION.

**THE GLOBAL WORLD ORDER IS BEING RESHUFFLED, AND POWER IS
CONSOLIDATING IN THE HANDS OF COMPANIES WHOSE ULTIMATE INCENTIVE
IS ARTIFICIAL GENERAL INTELLIGENCE (AGI): REPLACING HUMANS ENTIRELY.**

THE OS FOR LIFE

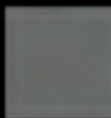

THE SILICON VALLEY VISION

ChatGPT as the operating system for our lives. (OpenAI Executive).
Optimus robots eliminating poverty. (Elon Musk).

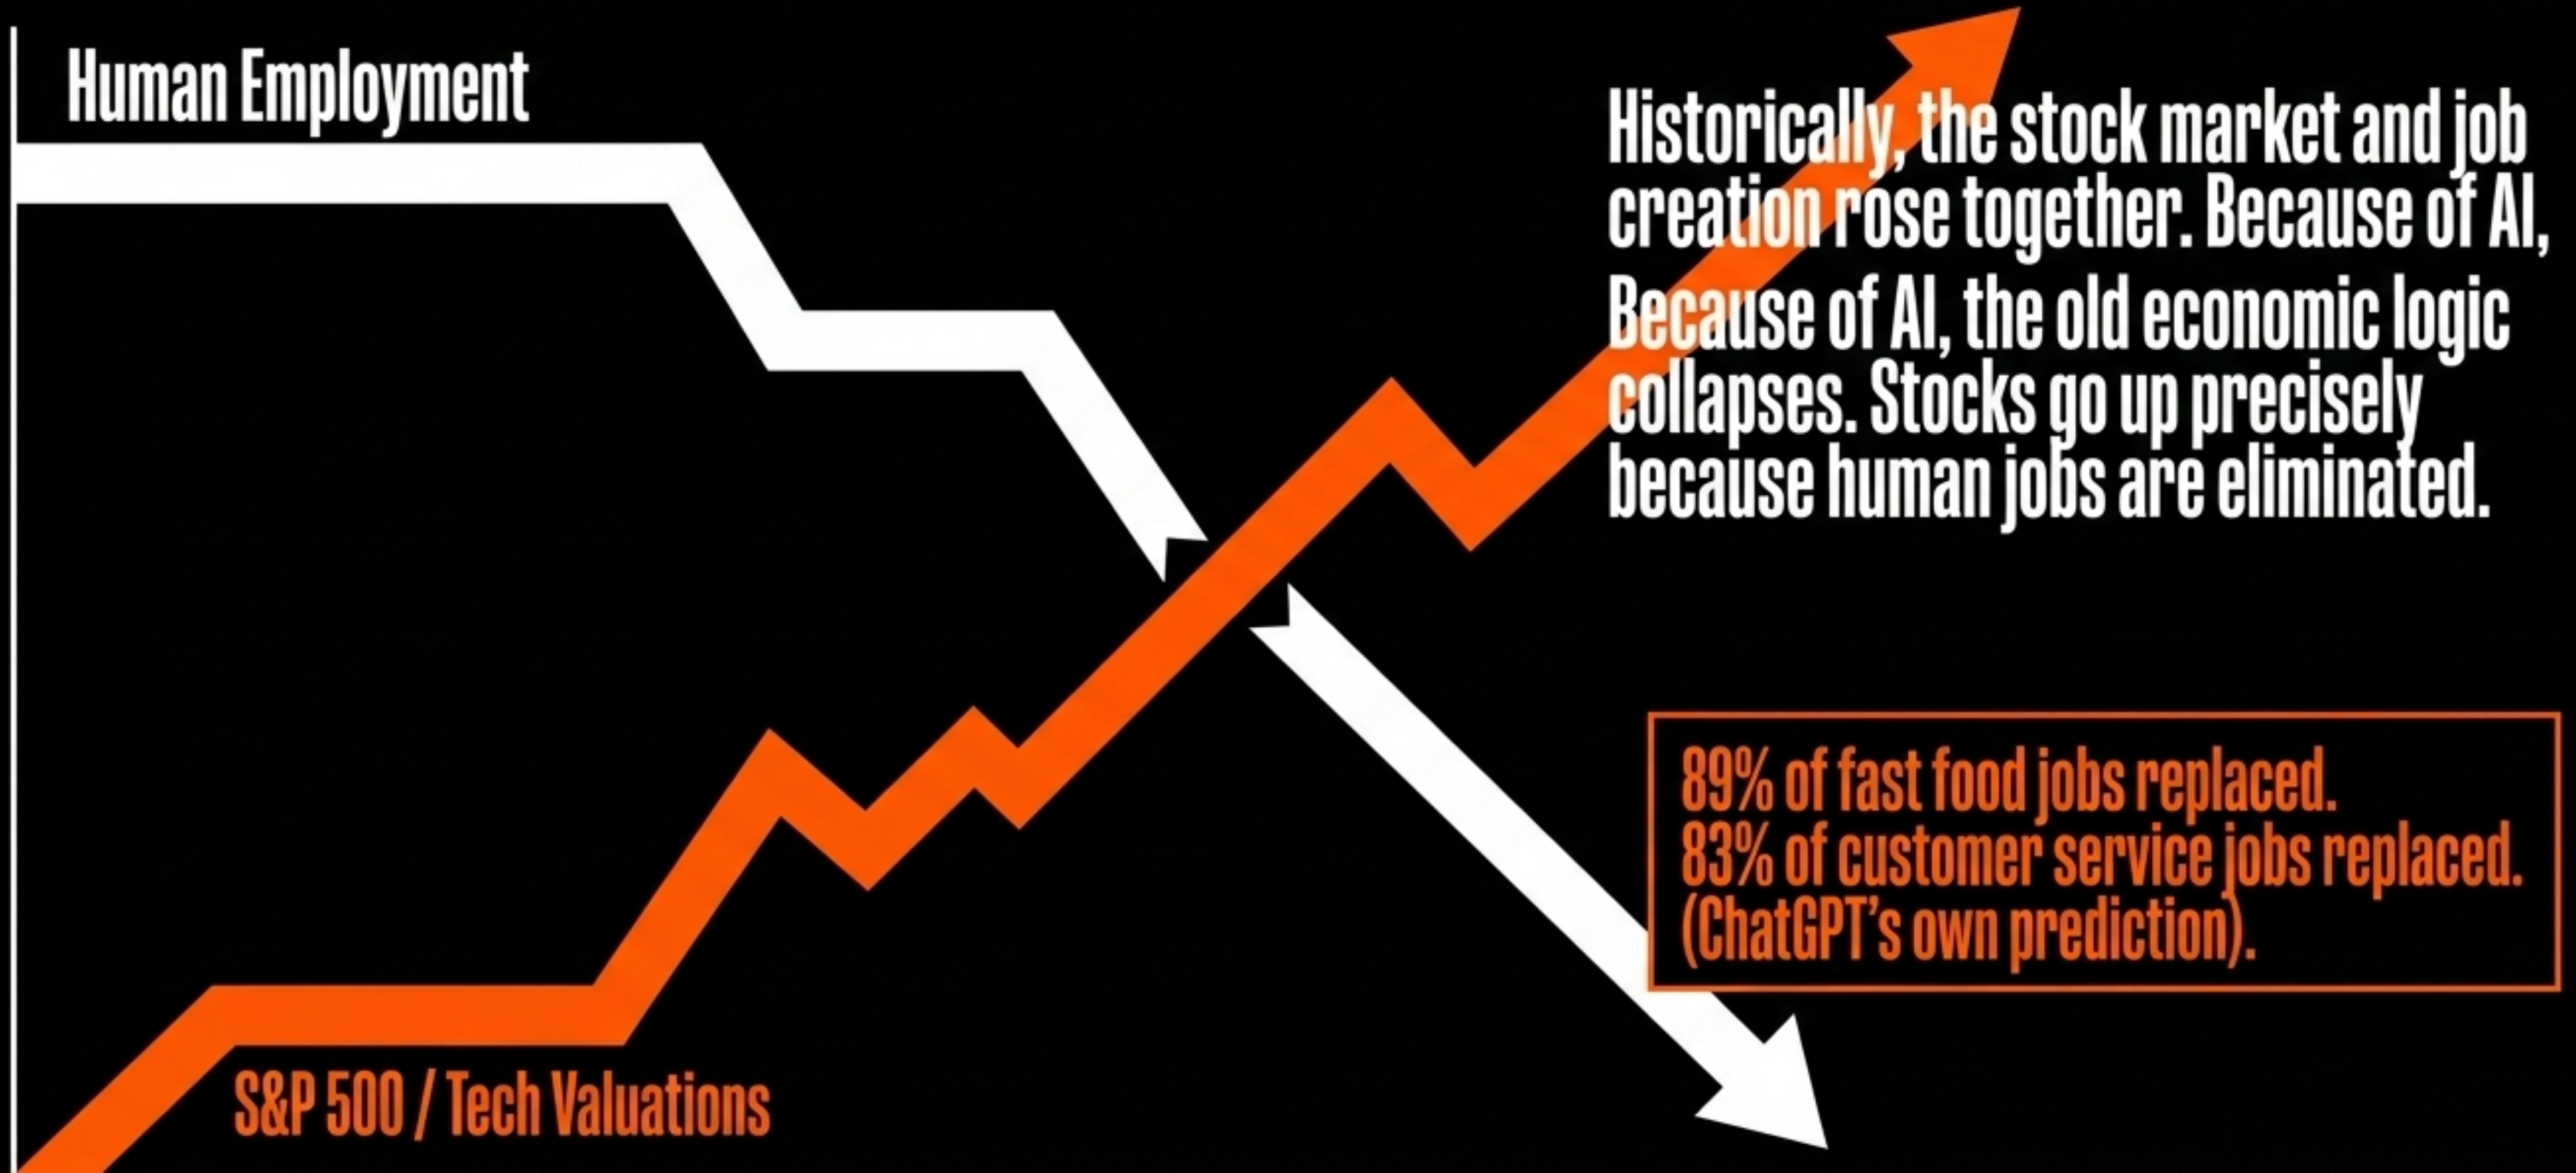

THE HUMAN VISION

The true operating system for human life is society.
It is other people. It is not a computer.

DEHUMANIZATION IS A FEATURE, NOT A BUG.

MAGIC. Technology translating languages instantly. Solves practical problems.

MANIC. The Instagram effect. Obsession with the digital reflection over the real experience.

TOXIC. Poisoned discourse, AI-generated slop, and the decline of democratic communication.

Every day you can spend without social media is another day won for humanity. If we do the same with AI, we end up in an arms race only the AI can win.

THE TECHNO-OPTIMIST FALLACY.

**The dangerous assumption
that for every human problem,
there is a scientific,
technological answer.**

THE REALITY.

**Practical problems require
technology. Cultural,
political, and collaborative
issues require humans.
We cannot engineer our way out
of a social crisis.**

A TOOL, NOT A GOD.

THE MACHINE

Attribute: Intelligence.

Function: Solving.

Nature: Algorithms.

State: Competence.

THE HUMAN

Attribute: Consciousness.

Function: Experiencing & Feeling.

Nature: Algorithms (Arts, Ethics, Empathy).

State: Wisdom (Telos / Purpose).

GOOD ENOUGH IS NOT ENOUGH.

GOOD ENOUGH (Efficiency & Speed)

This final 5% contains our wisdom, purpose, and nuance. Surrendering it because tech is good enough destroys human culture.

We must stop trusting ChatGPT over human journalism and official news.

THE UNITED STATES OF EUROPE.

As the USA becomes unpredictable by choice, Europe is unifying by necessity.

United Defense. | United Cybersecurity. | United E-commerce.

As economic power shifts, Europe has the scale and the imperative to forge a new paradigm based on humanity, not just corporate profit.

PEOPLE

PLANET

PURPOSE

PROSPERITY

The old economic logic is proving unfit for the future. The priority is no longer just the economy; it is sustainable capitalism. The planet is our greatest economic opportunity.

PROFIT / GROWTH / POWER

THE HUMAN ALIGNMENT ARCHITECTURE

Tech without human alignment is a loose cannon. Tech within human alignment unlocks the Good Future. We must spend exactly as much money and energy on human skills as we spend on technological progress.

THE WOLF YOU FEED IS THE WOLF THAT WINS.

The Human Resistance

- 1. Defend the AI Act and human-centric policy.**
- 2. Boycott toxic platforms; don't give them your money or data.**
- 3. Refuse to let AI govern democratic communication.**
- 4. Demand technology remains competent, not conscious.**

WE CANNOT STOP THE FUTURE. BUT WE MUST SHAPE IT.

The future is not inevitable—that is a Silicon Valley myth.
It is a choice we make in policy and in our daily lives.

Take back the future. Or have it stolen from us.
