

THE GOOD FUTURE

Moving from 1P to the 5Ps

1800

1900

2000

Deep learning, genetics, and combinatorial innovation
are permanently altering the trajectory of society.

We are measuring the 21st century with a 70-year-old yardstick.

Extreme Capitalism: The 1P Obsession.

Whatever makes money is fine, as long as it produces money. Bad things are incentivized.

1P: PROFIT & GDP

"GDP measures everything except that which makes life worthwhile."

WE HAVE THE SCIENCE. WE LACK THE TELOS.

WE ARE INVENTING
NUCLEAR FUSION, AI,
NANO-TECH, AND
INTEGRATED SOLAR.

Our Capacity

> — WE ARE LACKING
THE TELOS—THE GREEK
WORD FOR WILL
AND PURPOSE.

Our Direction

TECHNOLOGY CAN SOLVE CLIMATE CHANGE, HUNGER, AND ENERGY.
BUT TECHNOLOGY ALONE IS NOT ENOUGH TO SECURE HUMANITY.

EARTH 2030: HEAVEN OR HELL?

THE GOOD FUTURE

INTEGRATED
SUSTAINABILITY

DIVERSE/EQUAL
ECOSYSTEMS

COLLECTIVE HUMAN
FLOURISHING

TODAY

THE **CHOICE** IS CURRENTLY **BINARY.**

THE TRAIN WRECK

A WORLD OF THE VERY
RICH/POWERFUL

TECHNOLOGICAL
ABOMINATION

HEADING TOWARDS
4-DEGREE GLOBAL WARMING

MACHINES ARE BINARY. HUMANS ARE MULTINARY. HUMANS ARE MULTINARY.

BINARY

Driven by logic, efficiency,
and optimization.

MULTINARY

Driven by experiences, relationships,
emotions, and meaning.

THE DOMAIN DIVIDE

ALGORITHMS

(What makes machines efficient)

Data Processing

Logic

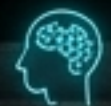

Optimization

Routine Automation

Artificial Intelligence

ANDRORITHMS

(What makes us human)

Empathy & Compassion

Intuition & Wisdom

Ethics & Morals

Creativity & Imagination

Spiritual Intelligence

Technology serves logic. Human functioning relies on ethics.
We cannot replace Androrithms with Algorithms.

THE TECH TRAP

MAGIC

Incredible utility, convenience, and problem-solving (e.g., instant information access).

MANIC

Overconsumption, dependency, and the illusion of connection (e.g., the 90/10 challenge where 10% becomes detrimental).

TOXIC

Dehumanization, abdication of human agency, and societal subservience to tech platforms.

Without ethical stewardship, utility degrades into dependency.

DIGITAL OBESITY

The All-You-Can-Eat
Information Buffet.

Abundance outside /
Scarcity inside.

**Craving and addiction is
tech's business model.**

We are gorging on unregulated digital 'food' designed to bypass our logic and hack our dopamine, leading to profound societal unfulfillment.

Offline is the new luxury.

The ability to disconnect and engage in life without the constant barrage of digital input is our most valuable asset.

A Societal Reset

OPTIMIZATION REFORMATION

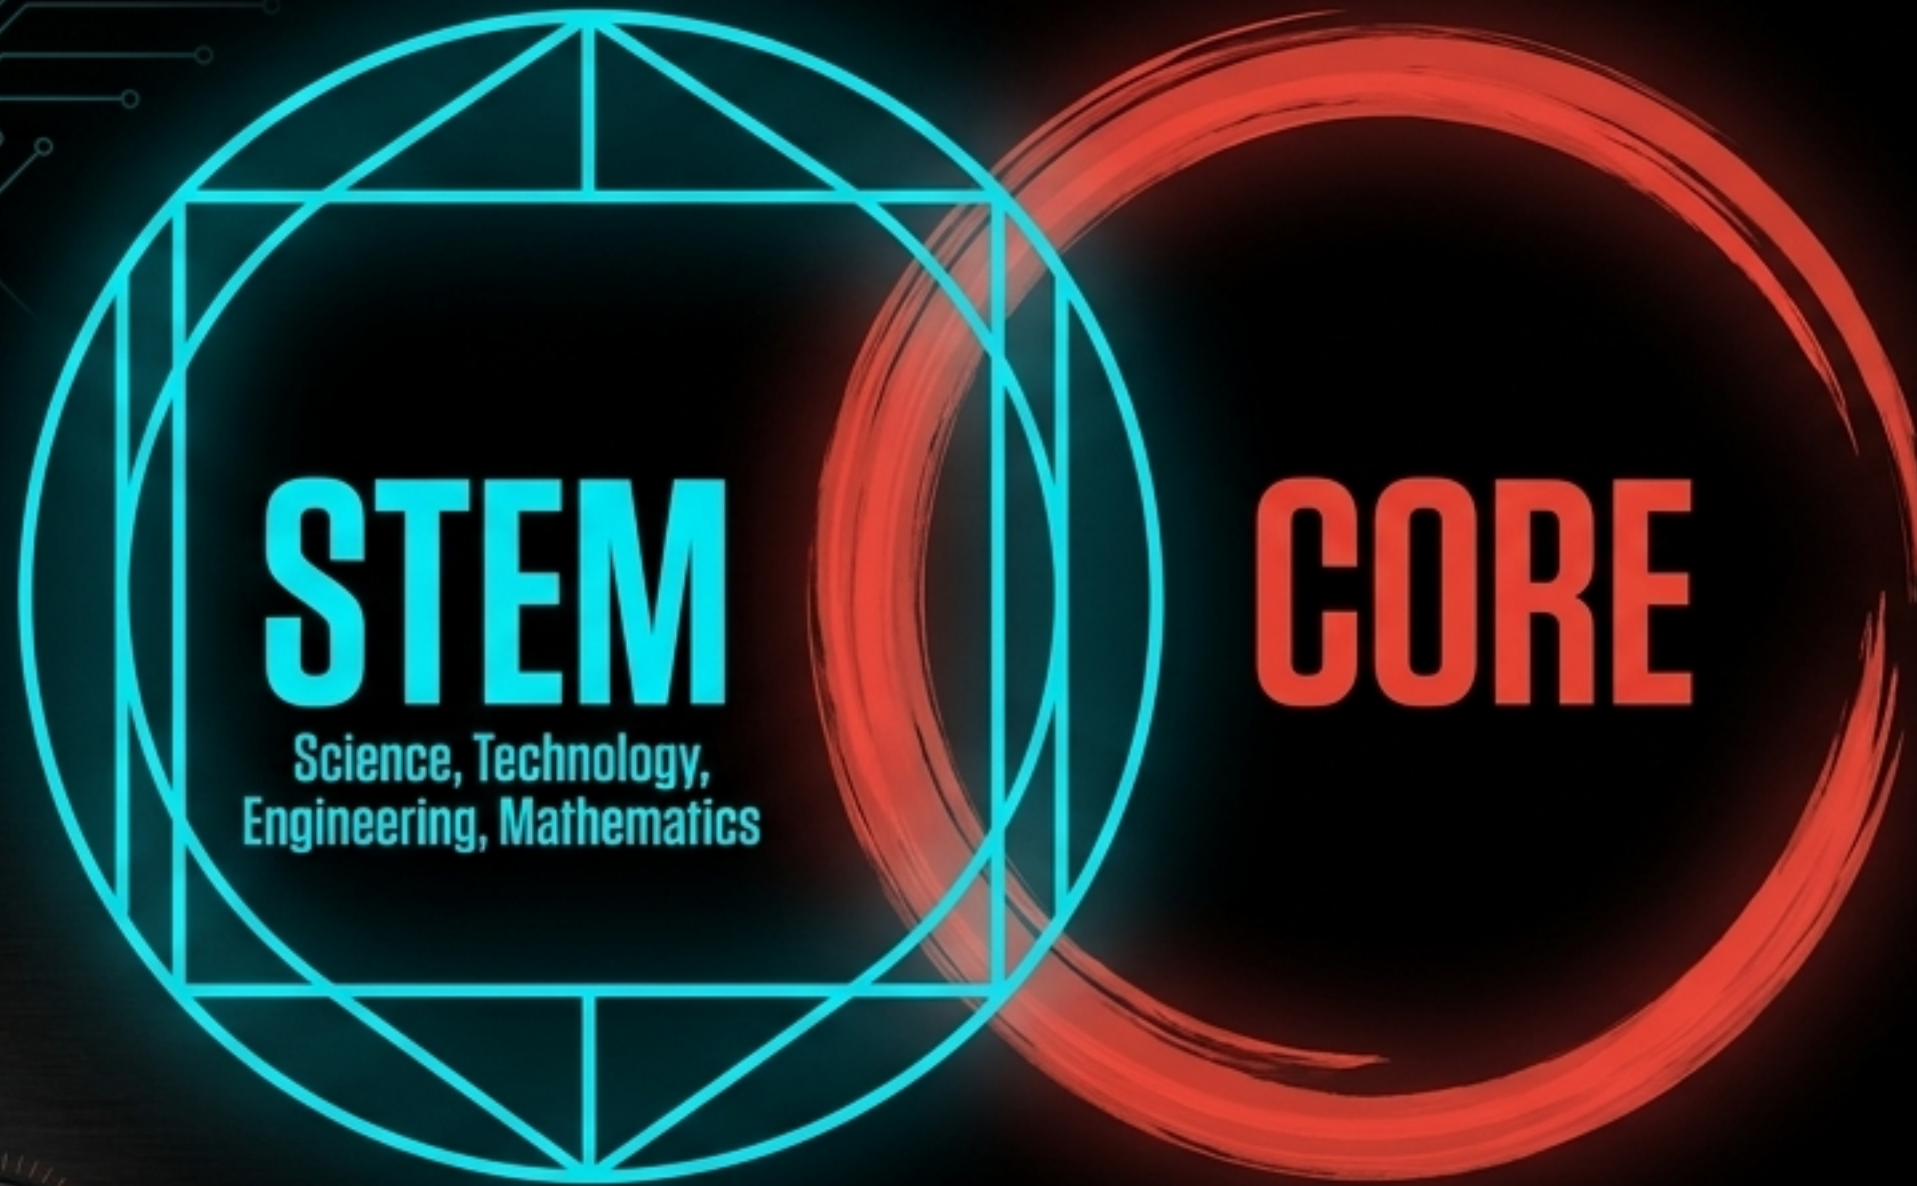

We do not just need a technological upgrade. We need a philosophical reformation to reorganize how we think about the world, reminiscent of the Renaissance.

Exponential Humanism

Embracing technology while fiercely protecting human essence. Technology is neutral; it takes on ethical dimensions only through human application.

We must counterbalance STEM with CORE

The Tools

The Purpose

- ☐ - Creativity
- ☐ - Originality
- ☐ - Reciprocity
- ☐ - Empathy
- ☐ - Compassion

TEAM HUMAN: RIGHTS FOR THE DIGITAL AGE

- 1.** The right to remain natural and unaugmented.
- 2.** The right to inefficiency that defines our humanity.
- 3.** The right to disconnect from connectivity.
- 4.** The right to anonymity in the digital sphere.
- 5.** The right to employ people over machines.

Safeguarding what makes us human.

ENTER THE 5Ps

PROSPERITY

PEACE

PEOPLE

**THE GOOD
FUTURE**

PLANET

PURPOSE

All technology and business decisions must serve the 5Ps to assure human flourishing. The 1P world of unchecked growth is dead.

THE FOUNDATIONS

PEOPLE

Investing as much in humanity as we do in data centers. Adapting education and society for a future of a 3-4 hour workday without loss of livelihood.

PLANET

Putting our environment back into a natural, holistic combination. True flourishing beyond market forces and simple carbon offsets.

THE ENABLERS

Shareholder Profit
(The Old Way)

Collective Societal Benefit
(The New Way)

PURPOSE:

Finding the "Telos"—acting for collective benefit beyond monopolistic capitalism.

PEACE:

Creating equal, diverse, and open systems that benefit everybody, actively preventing the hyper-inequality of a 4-degree warming world.

REDEFINING PROSPERITY

~~GDP & HEDONIC HAPPINESS~~

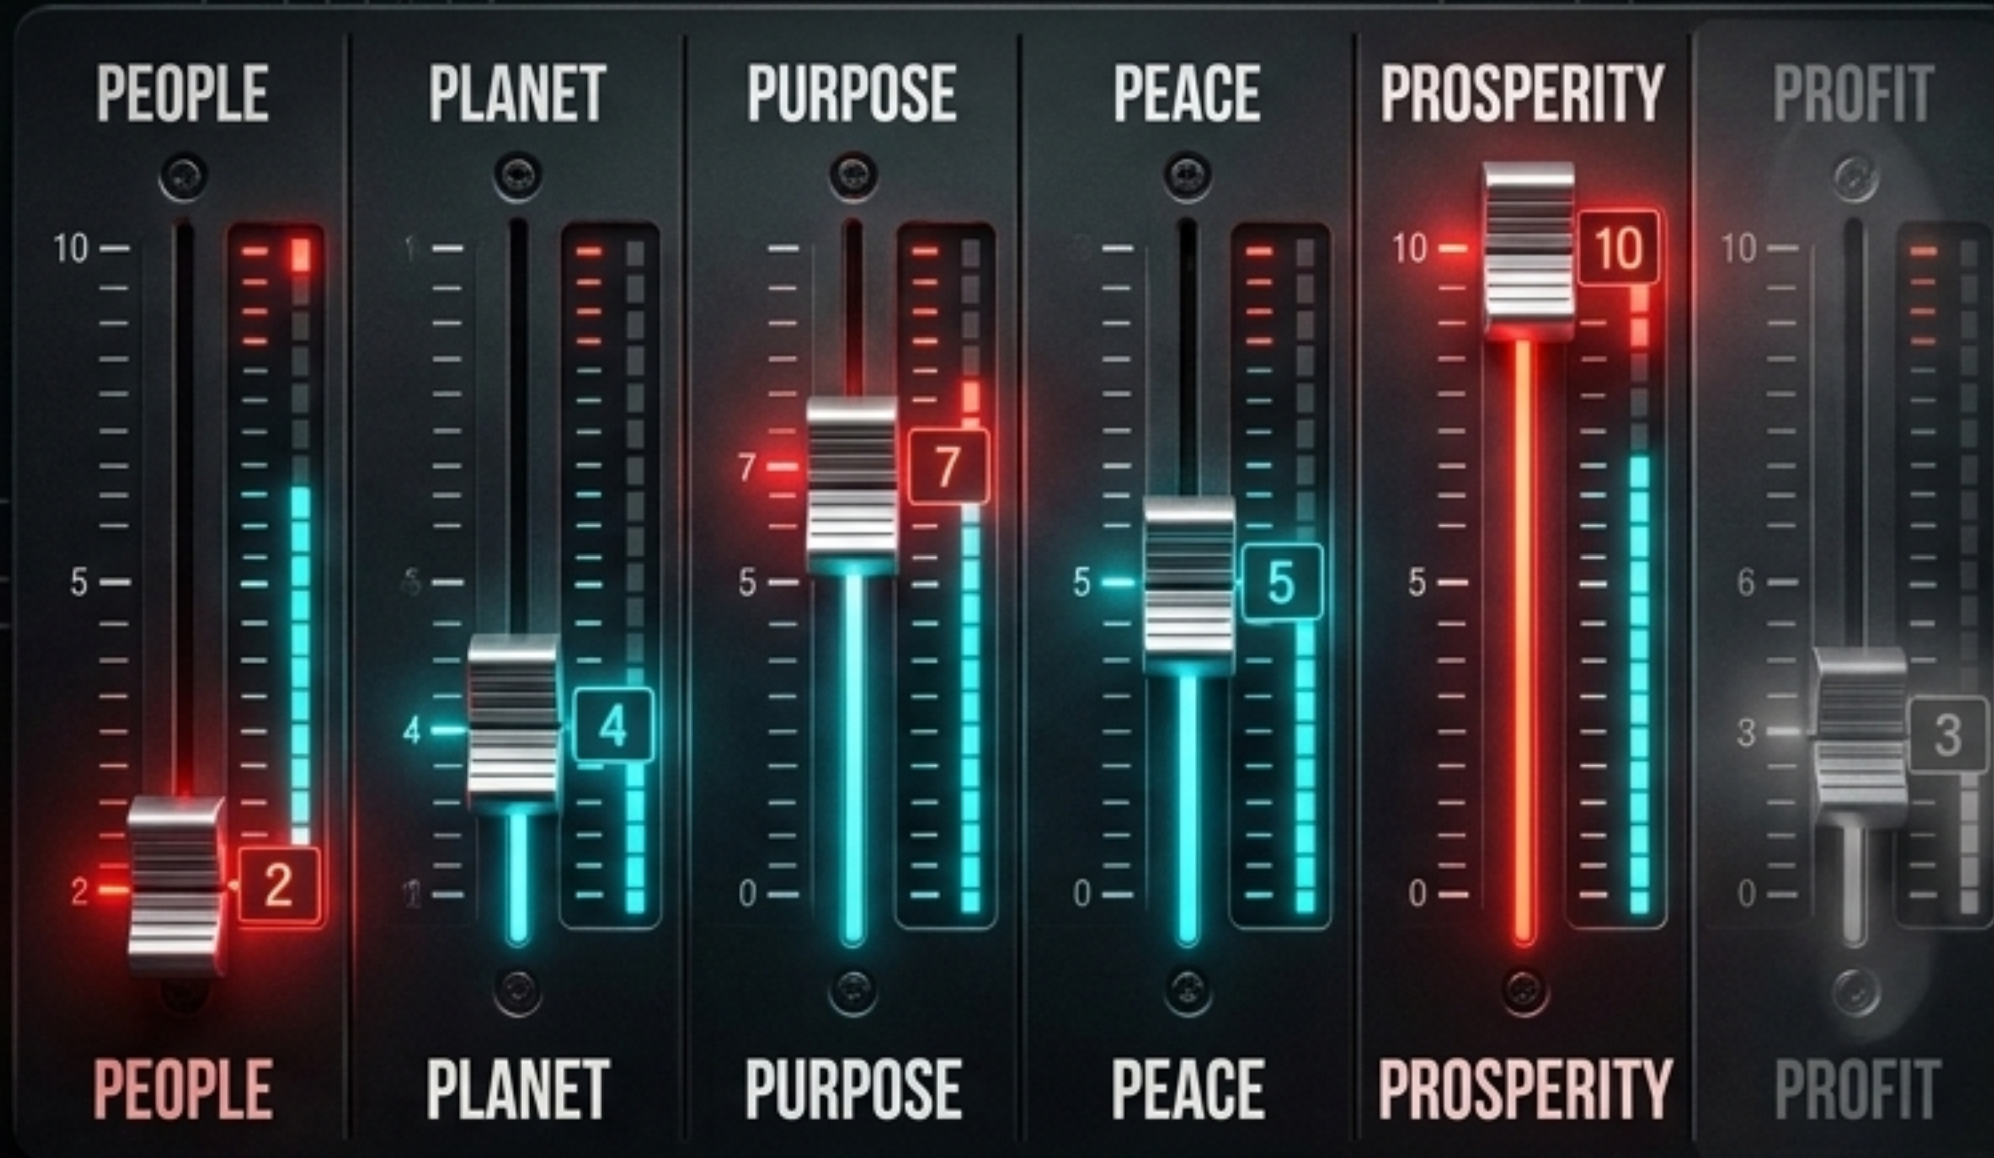

(Temporary pleasure, leading to addiction and digital obesity).

GROSS NATIONAL HAPPINESS
& EUDAIMONIC FULFILLMENT

(Deep fulfillment, relationships, meaning, and purpose)

Prosperity is not just profit. It is holistic well-being.

THE 5P DECISION EQUALIZER

You cannot score 10/10 on all five boxes every single day. That is impossible. It is about dynamic, overall balance. If you only ever tick one box, it's a bad idea.

Dynamic Balancing for Holistic Impact

ECOSYSTEMS OVER EMPIRES

Centralized, fragile, extractive.

Collaborative, diverse, resilient.

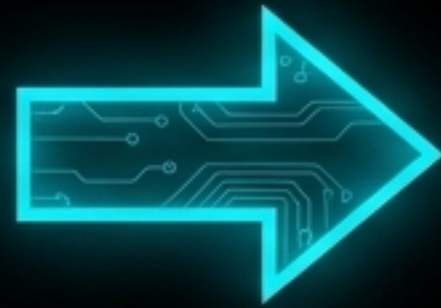

**Federation is not the loss of
sovereignty—it's the pooling of sovereignty.**

SHOW ME THE INCENTIVE, I'LL SHOW YOU THE RESULT.

If our incentive is The Good Future, we must design policies and markets that financially and structurally reward the 5Ps, rather than incentivizing bad behavior for short-term profit.

THE STEWARD'S MANDATE

~~CAN TECHNOLOGY
DO THIS?~~

SHOULD TECHNOLOGY
DO THIS?

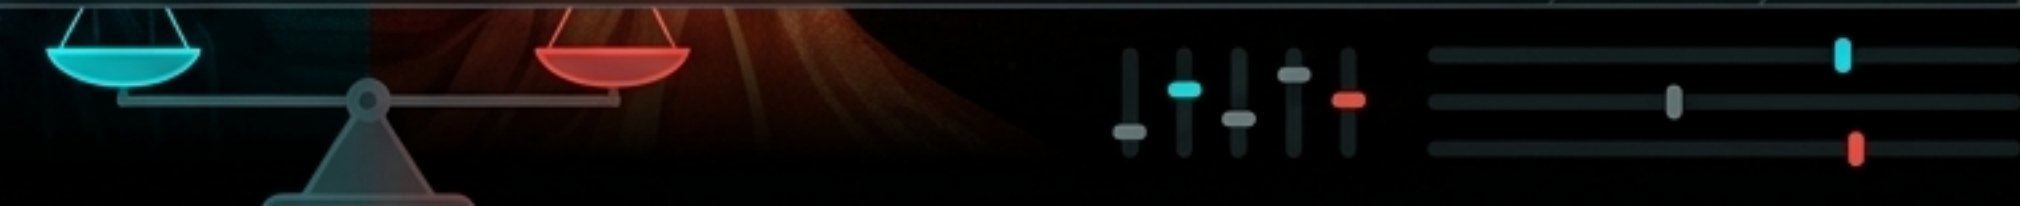

Ethics is knowing the difference between what you have the power to do, and what is the right thing to do. All leaders must act as stewards for humanity's future.

The choice is ours.

The Good Future is entirely possible. We are not just receiving the future; we are in charge of it.

Are you going to be part of it?

**PEOPLE
PLANET
PURPOSE
PEACE
PROSPERITY**

BUILD THE GOOD FUTURE.
